

**NEW DESIGN**

**Castellana Maxi®**

**HANDRAILS ARE DISASSEMBLED TO ALLOW EASY TRANSPORT**

Aluminium mobile warehouse stepladder with reinforced platform, guardrail and handrail. It is particularly suitable for heavy duty. Each step is firmly welded to the frame. The front side is wide and easy to climb and it is strongly inclined (55°), so that climbing becomes easier thanks to both the non-skid reinforced steps (20-cm wide with a distance of 23 cm one from the other) and to the large handrail. The back of the ladder is perpendicular to the ground, allowing the user to approach a wall or a shelf front onwards. The automatic braking system becomes operative when the ladder is open for use. When the ladder is moved with the raising arms, the rubber feet rise allowing the two wheels to move effortlessly over the ground.

- Base stabiliser with ergonomic feet and wheels Ø 125 mm
- Non-skid steps 20 cm
- Distance between steps 23 cm
- Frame profile 200x30 mm
- Guardrail height 100 cm
- Toeboard height 10 cm
- Large platform 53x92 cm
- Front width 60 cm
- Front part inclination 55°

**EN131/7 - TILT TEST WITH 30 KG SIDE TRACTION AT PLATFORM LEVEL**

Handrails fixing

n.	m	m	m	m	Kg
4	0,92	1,94	3,00	1,00x1,65	31,00
5	1,15	2,17	3,15	1,00x1,81	34,00
